Transportation Infrastructure in Southwest NH: Major Projects on Tap

Several of the Region's transportation infrastructure projects are included in the NH 10-Year Transportation Improvement Plan. Among the highest profile projects are a new bridge connecting New Hampshire and Vermont as a gateway to Interstate 91, and a solution to a complicated intersection of multiple routes in a downtown setting.

Joining us to describe these projects and participate in discussion:

- Donald Lyford, P.E., NHDOT, Project Manager for the Hinsdale/Brattleboro Bridge Replacement Project.
- Victoria Chase, P.E., NHDOT, Project Manager for what is commonly referred to as the Jaffrey dog-leg intersection of Routes 202/124/137.
