

Southwest Region Planning Commission

2020 Data Collection Internship

Southwest Region Planning Commission is actively seeking candidates for a seasonal Data Collection Internship. The position is expected to last from May into November and offer as many as five days per week and will be primarily tasked with collecting transportation- and traffic-related data in the field. This includes (but is not limited to): the setup and continued re-deployment of automatic traffic recorders and equipment; assessing culverts and stream crossings; conducting turning movement studies or other counts; and, assessments of road surface condition. Other responsibilities may include map-making, data entry, and quality assurance/quality control of collected data.

To apply, please complete the [Intern Information Request Form](http://www.surveymonkey.com/r/TSQ5VJY) (www.surveymonkey.com/r/TSQ5VJY) and send a copy of your resume and references to hunderwood@swrpc.org. For more information, please contact Henry Underwood of SWRPC at 603-357-0557.
