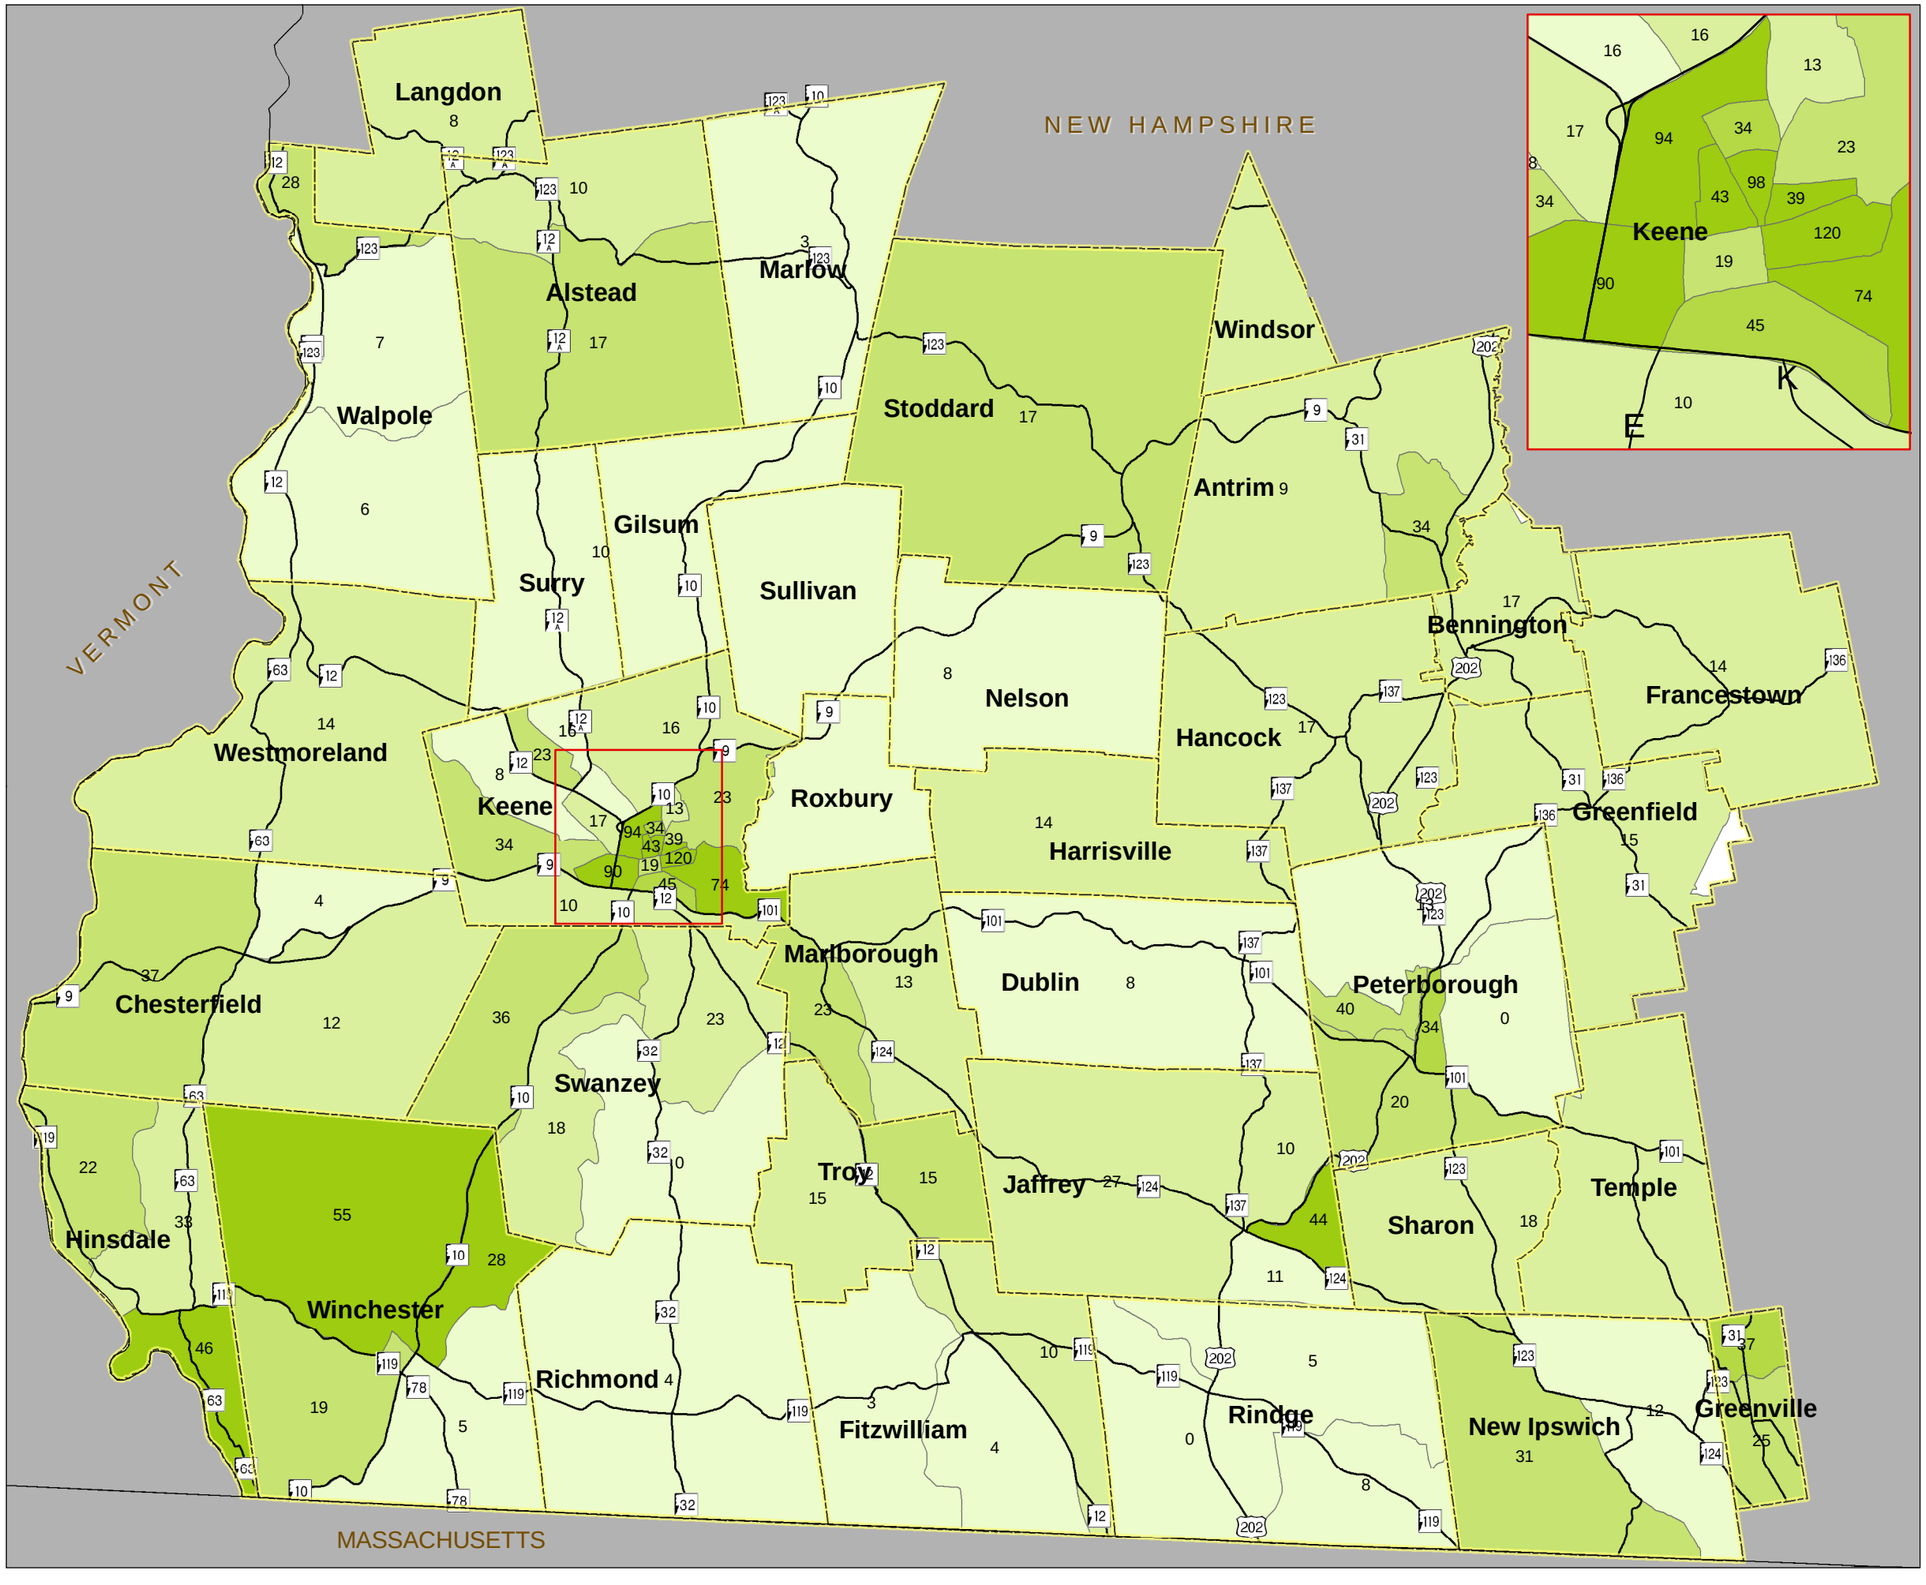
RCC 6 Community Transportation Assessment

Percentage of Occupied Housing Units With No Available Vehicle By Census Block Group



Legend

- Town Boundary
- Census Block Group Boundary
- State Roads (Class I, II)

% Housing Units Without a Vehicle

- 0.0 - 2.0
- 2.1 - 4.0
- 4.1 - 8.0
- 8.1 - 10.0
- 10.1 - 20.1

in block groups is equal to the total number of occupied housing units with no vehicle available.

A census block group is a geographical unit used by the United States Census Bureau and generally contains between 600 and 3,000 people, with an optimum size of 1,500 people.

Some towns, due to low population size, share block group boundaries. These towns include: Surry and Gilsum; Sullivan, Nelson, and Roxbury; Temple and Sharon; Windsor and Hillsborough (Hillsborough is not a part of the Southwest Region).
