INTRODUCTION

TRANSPORTATION CHOICES BENEFIT US ALL

In every part of the Monadnock Region there are people that need or want access to community transportation services. Some of the demand comes from people who are transit dependent – people that cannot drive due to age, disability, income, or other reasons. Other demands comes from people who want an alternate choice to driving for reasons such as convenience, environmental protection, or to save money. Community transportation is used for a variety of purposes including but not limited to, trips to medical appointments, shopping, long distance travel, entertainment and tourism.

The goal of the Monadnock Region Community Transportation Directory is to connect people seeking transportation with transportation providers regardless of their travel needs, abilities, and location. By providing information on a wide range of transportation options in the region, we hope to better connect residents and visitors with transportation providers and better meet community transportation needs within the Monadnock Region.

*A **strong, coordinated regional transportation system** provides community transportation options that offer a number of benefits including:*

QUALITY OF LIFE & HEALTH

- Creating **better access** to family, friends, and community activities that improve quality of life including education/training, health and social services, shopping, and entertainment .
- Connecting people, including non-drivers, to **essential health and human services**.

ENVIRONMENTAL

- Improving **traffic congestion, air quality and health** by reducing the amount of vehicles on the road.
- Reducing our region's dependency on **fossil fuels** by providing options for groups to travel together and reducing the number of single occupancy vehicles on the road.

ECONOMIC

- Providing **affordable** transportation alternatives to access daily needs.
- Enhancing **local economic growth** by increasing the local customer base for a range of services and connecting residents with places of employment.

BACKGROUND

THE MONADNOCK REGION COORDINATING COUNCIL

The Monadnock Region Coordinating Council (MRCC) is a coalition of transportation users, purchasers, and providers in the Monadnock Region working to improve access to and the affordability of regional community transportation services. The MRCC created this directory to share information about available transportation resources in the Region by town and transportation service type.

COMMUNITY TRANSPORTATION is the family of transportation services in a community, including public and private sources, that are available to respond to the mobility needs of community members including but not limited to seniors, persons with disabilities and persons with lower income.

The directory is designed to be a resource for social service agencies, human service providers, transportation agencies, municipalities, and the general public. Because of the diverse array of users, the directory not only provides information on the services themselves, but also offers tips for how to most effectively use the community transportation services listed.

THE MONADNOCK REGION COORDINATING COUNCIL

The MRCC monitors community transportation in all of Cheshire County and ten towns in Western Hillsborough County (Antrim, Bennington, Franconia, Greenfield, Greenville, Hancock, New Ipswich, Peterborough, Sharon, and Temple). The MRCC covers Regions 5 and 6 (i.e. Cheshire and Hillsborough Counties) in the state of NH. Together, MRCC stakeholders are working to better understand and define the Region's unique community transportation needs. The MRCC views the coordination of community transportation services as an opportunity to improve and enhance the transportation network, services, and resources available in the Region. *The mission of the MRCC is to actively lead and engage the Monadnock Region in building an innovative, coordinated, and resilient transportation network.*

MRCC members meet regularly to discuss how to build a stronger regional transportation system.

HOW TO USE THE TRANSPORTATION DIRECTORY

HUMAN SERVICE PROVIDERS/SOCIAL SERVICE AGENCIES

- Review this directory to identify **available community transportation services** in your service area.
- Ask your clients if they have a **transportation need**.
- Be **flexible** and **considerate** when scheduling appointments for those with a transportation need.
- **Refer** your clients to the services available in their community.
- Provide your clients with the **“Tips for Users: Customers of Human Service Providers & Social Service Agencies”** handout (see page 125)

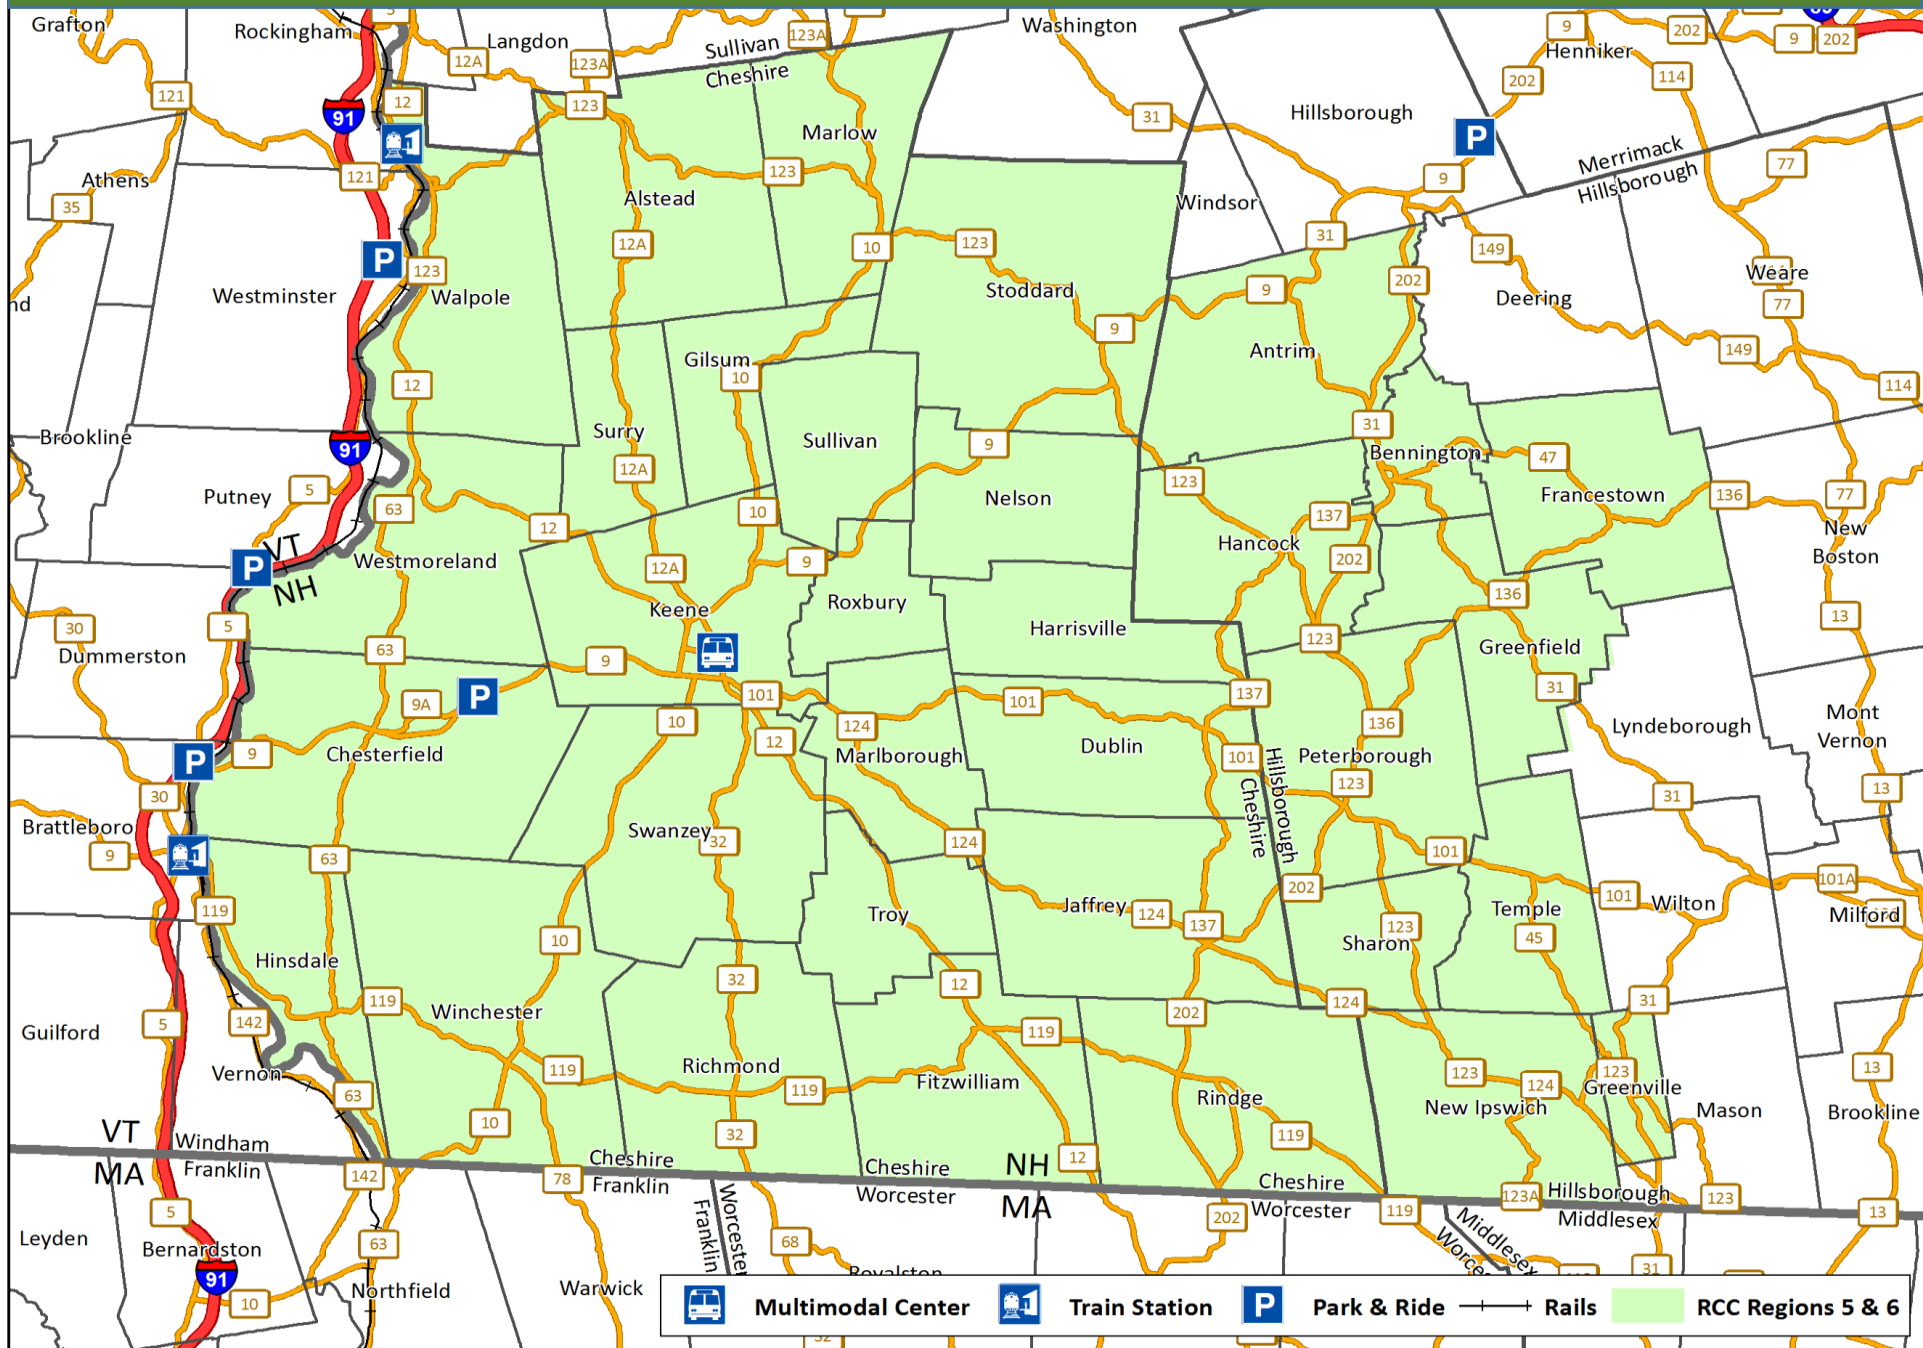

MUNICIPALITIES

- Display the Monadnock Region Community Transportation Directory in public places such as the **community library**.
- Include a link to the directory on **your community’s website**.
- Know the **transportation services available** for the people in **your community**.
- Provide a copy of the directory to your community’s **local welfare officer**.

GENERAL PUBLIC

- Review this directory of the **available transportation services in your locale**.
- Review the **“Tips for Users: General Public”** and **“Tips for Users: Ridesharing in New Hampshire”** handouts to find out how to conveniently find, plan, and use transportation where you live (see page 124 and 126).

MAP OF MONADNOCK REGION & MRCC TOWNS

OVERVIEW OF TRANSPORTATION SERVICES

In this “Overview of Transportation Services” section of the Community Transportation Directory, you will find definitions and descriptions of the types of transportation services provided in the region. Following the “Overview of Services” section, services will be listed by type and by town. Each service’s listing will include information about the type of transportation they offer, the service area, the days and hours of operation, whether a fare is required, and the vehicle’s ability to accommodate wheelchair users, bicycles, and other passenger needs.

Community transportation services are classified as either **fixed route services** or **demand response services**. Fixed route services run on regular scheduled routes with fixed stops. Some fixed route services offer paratransit services for passengers with mobility difficulties near routes. Demand response services provide passengers rides from a specific location to another specific location at an agreed upon time. These services transport passengers based on requests for needed rides.

DEFINITIONS

FIXED ROUTE

INTERCITY BUS SERVICE is a public or private bus service that uses coaches to carry passengers distances between different cities or towns. Intercity buses often connect to bus stations or hubs which allow passengers to connect to locations throughout North America.

INTERCITY RAIL SERVICE is a rail service that uses trains to carry passengers distances between different cities or towns. The Amtrak Vermonter and the Massachusetts Bay Transportation Authority are the closest train services to the Monadnock Region.

LOCAL PUBLIC TRANSIT is a bus service provided on a fixed route with a fixed schedule. Anyone can ride public transit for a small fee or donation, including persons with disabilities and seniors. There are public transit services available in Keene, Walpole, and Hinsdale.

DEMAND RESPONSE

HUMAN SERVICE AGENCY PROVIDERS are organizations that provide specialized transportation services to a select group of people based on criteria, such as people with disabilities or seniors. Typically, transportation is only provided to individuals enrolled in an agency's program(s). These are demand response services, meaning they do not run on a pre-defined schedule, but instead provide curb-to-curb service using small vans or cars. Clients of Human Services Transportation Providers are typically required to request a ride a day or more in advance. The services are often provided either free of charge or through reimbursements from federal and state programs.

MEDICAL TRANSPORTATION PROVIDERS, for the purposes of this directory, are organizations and companies that provide non-emergency medical transportation and/or emergency medical transportation services. The types of medical transportation providers can range from wheelchair transport services, which have vehicles with specialized lifts to take patients to and from doctor's appointments, treatment, and therapy appointments, to ambulance transportation for emergency and nonemergency situations.

PARATRANSIT SERVICE, sometimes referred to as complementary paratransit service, is mandated under the Americans with Disabilities Act (ADA) for all public transit systems. Paratransit service must be provided within $\frac{3}{4}$ of a mile of existing public transit routes for people with disabilities. Paratransit is a door-to-bus stop or door-to-door service provided for a small fare or donation.

PRIVATE-FOR-HIRE describes, for the purposes of this directory, transportation companies that provide a range of transportation services and vehicles for hire with prior booking for a set rate. These companies typically offer charter bus, limousine, private sedan, and/or shuttle transportation for hire to special events and airports.

RIDESHARE is service where an individual would either use a toll free number, web-based ride board or social network to arrange a ride with another individual or group of individuals interested in carpooling. Rideshare can be used for commuting to work, school, grocery shopping, social events, etc.

TAXI is a vehicle for hire, which conveys passengers between locations of their choice, without prior booking. Types of vehicles and methods of regulation, hiring, dispatching, and negotiating payment can differ among providers.

SYMBOL REFERENCE

Below is a reference of the symbols used to describe some of the services transportation providers offer.

Wheelchair Accessibility

Bicycle Accommodation

Paratransit Availability

Please note: This transportation directory is solely a listing of community transportation services identified within the Monadnock Region. It is not intended to promote or endorse one service over another. Some services may be missing from this listing and information may not be up to date. It is important to contact the provider prior to using the service to ask any relevant questions regarding service information.

TRANSPORTATION HUBS

There are a number of places scattered around or near the Monadnock Region that accommodate people wanting to park and ride in a carpool, hop on an intercity bus, or take a train. Information about bus, train and carpooling services associated with these park and ride lots, intermodal transportation center and train stations are included in later sections of the Community Transportation Directory.

INTERMODAL TRANSPORTATION CENTERS AND TRAIN STATIONS

The Monadnock Region currently has one intermodal transportation area located in Downtown Keene on Gilbo Avenue. Commuters and travelers can connect with local transit services with Keene's City Express. In addition, the area is the stopping place for Greyhound Bus service with connections to places like Nashua, Brattleboro, VT, Bellows Falls, VT, Boston and New York City. Keene's intermodal transportation area is also adjacent to a bike path.

To the east of the Monadnock Region, there are bus services and long term parking available at the previously mentioned facility located at 37-71 North Southwood Road, just off of Exit 8 of the Everett Turnpike in Nashua. Amtrak Vermonter train service is available in nearby Brattleboro, VT and Bellows Falls, VT, both of which have some nearby longer term parking options available. The station in Brattleboro is located at 10 Vernon Road and Bellows Falls station is located at 54 Depot Street. The Alewife Station is a Massachusetts Bay Transit Authority Red Line subway station in located in North Cambridge, MA. This station is an intermodal transit hub that includes a multi-level parking garage, secure bicycle spaces, and a covered bus stop. The Fitchburg Intermodal Transportation Center is a passenger rail and bus station situated in downtown Fitchburg, MA and provides vehicle and bicycle parking spaces for those taking the bus or train.

Pictured above is the Brattleboro, VT Amtrak Station. Pictured below is the Alewife Station in North Cambridge, MA.

PARK AND RIDE LOTS

Within the Monadnock Region, there is one 45-space park and ride lot located at Chesterfield Gorge Natural Area in Chesterfield located on NH 9 west of Keene. In addition, the transportation service provider, Thomas Transportation, has 80 parking spots reserved at the Keene Airport for park and ride purposes. Those who wish to use Thomas Transportation to get to major regional airports can park at the Keene Airport for free for up to two weeks.

There are also several park and ride lots located just outside of the region. To the east, there is a 106-space formal park and ride on NH 9/US 202 in Hillsborough. The park and ride lot is located at 229-239 Old Henniker Street off of the Henniker Street Exit on NH 9/US 202. Another park and ride lot that may be useful for people from the eastern part of the Monadnock Region is the 350-space facility located at 37-71 North Southwood Road, just off of Exit 8 of the Everett Turnpike in Nashua. The Nashua park and ride includes direct connections to bus services including Boston Express, Nashua Transit and Greyhound. For more information about these and other New Hampshire park and ride lots visit <https://www.nh.gov/dot/programs/rideshare/lots/>.

Several park and ride lots exist just west of the Monadnock Region in Vermont. This includes a 25-space lot located in Brattleboro, VT at 15 Browne Court off of US 5, near Exit 3 on I-91. Further north in Westminster, VT, there is a 34-space park and ride lot located at 1389 Westminster Heights Road, near Exit 5 on I-91. Both park and ride lots are connected with bus routes operated by Connecticut River Transit. For more information about these and other Vermont park and ride lots visit <http://parkandrides.vermont.gov/>. Please also see the map on page 6 of the directory to see locations of nearby park and ride lots.

Pictured above is the Park and Ride Lot in Chesterfield, NH.

TIPS FOR USERS

GENERAL PUBLIC

The following are tips for those who want or need to travel by public transportation to get to work, school, errands, or other trip purposes. Public transportation in or near the Monadnock Region consists of local public transit routes (including City Express in Keene and The Current in Hinsdale and Walpole), intercity bus services (Greyhound), and intercity rail (Amtrak). They should make taking public transportation easier and more convenient.

1. KNOW WHERE THE BUS/TRAIN STATIONS ARE IN THE REGION.

There are nearby Greyhound Bus stations located in downtown Keene, Nashua, and Bellows Falls, VT, as well as Amtrak stations located in Brattleboro, VT and in Bellows Falls, VT. If you are taking the bus or train, remember to always show up a few minutes ahead of time at the designated pickup location. No public transportation system is perfectly timed and it may take you time to find a parking space. Consider having someone drop you off at the stop to avoid parking headaches. All intercity public transportation stations listed in this directory are equipped with bicycle racks, making it easier to use a bicycle to get to the bus/train station.

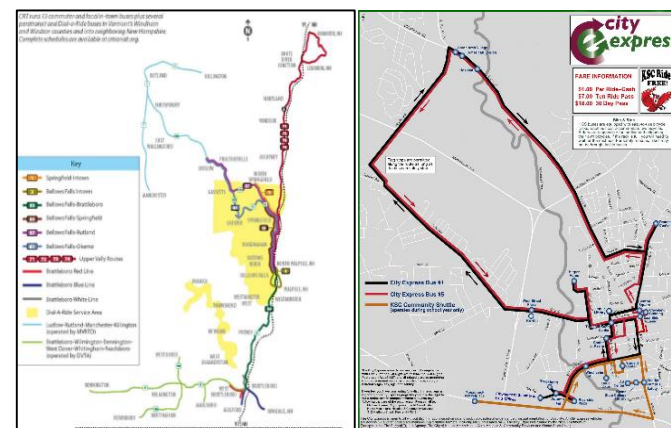

2. CONSIDER PURCHASING YOUR BUS/TRAIN PASS AHEAD OF TIME.

While most intercity bus and rail services have online ticketing systems outside their stations, local bus transit services usually take exact change as payment. If possible, purchase your tickets ahead of time – it's usually less expensive. If you take local public transit often, consider investing in a monthly bus pass to save the hassle of paying for every ride and to save on bus fare costs.

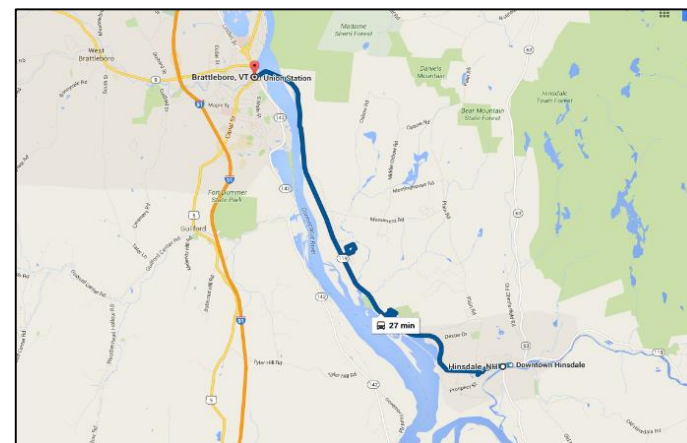

3. KNOW YOUR SCHEDULES AND ROUTES.

Bus and rail services provide maps of all their routes that show stops along the way and can be accessed online, at the bus or train station, or by mobile phone. The Keene City Express Bus System and CT River Transit's Current Bus Lines display its bus schedules, routes, and stops on Google Maps to make it easier and faster for passengers to look up where they can go by bus on any given day. To make finding bus routes easier, use Google Maps Transit to find out which lines can take you where you need to go. Greyhound and Amtrak both provide phone apps that let users book trips, access information about schedules, ticket prices, and other travel details.

"In 2014, Americans took 10.8 billion trips on public transportation- the highest in 58 years."
-American Public Transportation Association

Pictured above are bus route maps of Hinsdale's The Current and Keene's City Express. Pictured below is The Current's Brattleboro Blue Line.

TIPS FOR USERS

CUSTOMERS OF HUMAN SERVICE PROVIDERS & SOCIAL SERVICE AGENCIES

As a user of community transportation services, it is important for you to review the following frequently asked questions and related suggestions prior to scheduling a ride with a transportation provider. These questions will help you identify the most appropriate provider and may make it easier to arrange for a ride.

1. ARE YOU TRAVELING BY WHEELCHAIR?

If you are traveling by wheelchair, let the transportation provider know what your needs are in advance. A transportation service may not have a wheelchair accessible vehicle but they might be able to provide a ride if you are physically able to get in and out of a wheelchair and into a vehicle without assistance. Any other assistance you may need, such as passenger assistance, should be discussed with the provider before arranging for a ride.

2. DO YOU RECEIVE MEDICAID?

If you are a Medicaid recipient, ask the transportation provider if they accept Medicaid reimbursement prior to scheduling a ride. In the event that the provider does accept Medicaid, you should have your Medicaid number readily available. Your Medicaid transportation is determined by your Medicaid plan. Visit the Directory's Medicaid Transportation page on page 18 for plan contract information.

3. ARE YOU TRAVELING WITH CHILDREN?

Be sure to inform the transportation provider if you will be traveling with children. Some providers are unable to transport children and others will need to know exactly how much space you will need in the vehicle. According to NH law (RSA 265:107-a), any passenger that is less than 6 years of age and is also less than 55 inches in height must be properly fastened and secured by a federally approved car seat or booster seat that is appropriate for the child's age and weight. The law further requires that all children under age 18 must wear a properly fastened seat belt.

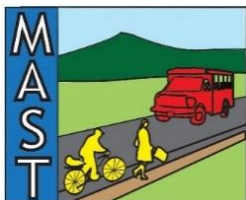

TIPS FOR USERS

RIDESHARING IN NEW HAMPSHIRE

Ridesharing is the sharing of vehicles by passengers to get from point A to point B and is an increasingly popular alternative to driving alone. Commuting by car or vanpool saves money by decreasing commuting costs and reduces air pollution and traffic congestion on the road. Carpooling can also make a commute more enjoyable or relaxing if driving responsibilities are divided between a group of people. In the table below, see details about the New Hampshire Rideshare Program. Carpools can be organized throughout the state.

Provider	Service Description	Service Area
NH Rideshare Phone: (800) 462-8707 Website: http://www.nh.gov/dot/nhrideshare/index.htm	A free ride matching service provided by the NH Department of Transportation used to arrange carpools for work, social events, errands, etc.	NH

Listed to the right are **ridesharing and carpooling tips** adapted from NH Rideshare, The Community Volunteer Transportation Company, and the Mid-American Regional Council Rideshare Program. For a more comprehensive list of tips and resources, visit the Monadnock Alliance for Sustainable Transportation's webpage on New Hampshire Ridesharing (see bottom of page).

MONADNOCK ALLIANCE FOR SUSTAINABLE TRANSPORTATION

The Monadnock Alliance for Sustainable Transportation (MAST) is a diverse coalition of public and private sector stakeholders interested in a better transportation future for the Monadnock Region. To learn more about ridesharing and other transportation options in the region, visit www.mastnh.org/rideshare.

1. GET ACQUAINTED FIRST.

To create a successful carpool experience, make arrangements to meet prior to the first time carpooling together. Determine your route and schedule. What time do you both need to be there? What is the most efficient driving route to ensure everyone arrives in a timely manner? Establish pick-up and drop-off times. Where should you meet? Many carpoolers will agree to meet at a public location such as a park and ride.

2. COMMUNICATION IS KEY.

Communicate with your fellow carpoolers. If you're running a few minutes late, call them and let them know. If you aren't able to carpool on a particular day because of a schedule conflict, give your fellow carpoolers ample notice. Communication is also important in deciding driving responsibilities and schedules as well as establishing a method of reimbursing driving expenses.

3. PRACTICE GOOD CAR ETIQUETTE. Try to keep your vehicle clean and in good condition when using it for carpooling purposes. Be punctual and courteous and agree on waiting times if someone is late. Successful carpools generally have agreed upon rules for the radio, smoking, car temperature, etc. to reduce commuting conflict.
