Bicycle and Pedestrian Counts

	Location	Count Period	Estimated Annual Trips	Estimated Annual Average Daily Traffic (AADT)
Peterborough	Common Path south of Grove Street	7/12/21-8/1/21	8,906	24
Jaffrey	Monadnock Recreational Rail Trail south of Union Street 2020	7/21/20-8/12/20	17,582	48

Corridor In- and Out-Commuting

In-commuters work inside the region and live outside of it. Out-commuters, meanwhile, live in the corridor, and work outside of it. A third category of workers both live and work within the corridor.

Top Commuting Origin-Destination (O-D) Pairs

Commuting O-D pairs describe where workers are traveling from (their home) and where they are traveling to (their place of work). The table below distinguishes between commuters who *work* in the region and those that *live* in the region. There is some overlap between these two groups—commuters who both work and live within the corridor. Therefore, some O-D pairs may appear on both side of the table.

Commuters Working in Corridor Communities			Commuters Living in Corridor Communities		
Residence	# Commuters	Workplace	Residence	# Commuters	Workplace
Jaffrey	412	Peterborough	Jaffrey	412	Peterborough
Rindge	327	Jaffrey	Rindge	327	Jaffrey
