The Town of Temple **wants to hear from you about local road safety and accessibility issues** to help prioritize transportation-related infrastructure improvements over time. It is Temple's long-term goal to make our streets safer for everyone, regardless of how you want to get around. Over the next few months, the Town will work to develop a local complete streets policy and inventory potential projects. As part of this process, a task force of town staff, officials and the project consultant have developed two ways you can share road safety concerns: a **survey** and a **map exercise**. Please respond by **May 22nd**. Thank you!

TAKE THE SURVEY

Share your experiences about safety and how you get around

MARK THE MAP

Identify safe and unsafe areas, ideas for improvements and popular destinations

This project has support from the Monadnock Alliance for Sustainable Transportation (MAST) and Southwest Region Planning Commission (SWRPC).
