Important Note: The American Community Survey is an annual survey administered by the US Census Bureau to gather socioeconomic and other information. ACS data is expressed as estimates. Because the ACS uses sample data, each estimate is reported with a margin of error. Margins of error vary by dataset, and in some cases are very large at small levels of geography such as the municipal level. Estimates shown here are aggregated over a five-year period and do not represent a specific point in time. Learn more at: www.census.gov/acs
